

OVSWorld

Your Cloud... Your Way

OneVision Solutions recognizes that every customer's video and collaboration needs are unique. OVSWorld offers customers the ability to tailor their cloud services to technically and financially meet their distinct collaboration needs.

WEBRTC

Invite guests to collaborate from their web browser without the need of a dedicated video client.

SUPPORTS:    

VIRTUAL MEETING ROOMS

Participants join meetings using the communication tools they are used to using, including: Hardware endpoints (SIP/H.323), Lync/Skype4Business, Mobile and Soft clients (iOS/iPad/macOS, Windows), and Audio participants

VIDEO ENDPOINTS

Use your existing H.323 or SIP endpoints to communicate with anyone around the globe.
